

# Table of Contents

<b>1 – Introduction .....</b>	<b>1</b>
<b>2 – Rice Growth and Development .....</b>	<b>9</b>
Vegetative Phase .....	11
Reproductive Phase .....	14
Ripening Phase.....	19
Effect of Temperature on Growth and Development of Rice.....	20
<b>3 – Rice Cultivars and Seed Production .....</b>	<b>21</b>
Rice Seed Production.....	22
Genetically Modified Rice .....	23
Rice Cultivar Performance and Agronomic Characteristics .....	23
Other Cultivars .....	28
Kernel Classification and Cooking Qualities.....	28
<b>4 – Rice Stand Establishment .....</b>	<b>29</b>
Seeding Rate.....	29
Seed Treatments.....	31
Seeding Date and Soil Temperatures .....	33
Tillage and Post-Seeding Management .....	36
References .....	38
<b>5 – Water-Seeded Rice .....</b>	<b>39</b>
Conventional Water-Seeding .....	39
Field Preparation .....	39
Methods of Presoaking .....	40
Water Management.....	40
Nutrient Management.....	40
Weed Control.....	41
Insect Control .....	42
No-Till Water-Seeded Rice .....	42
Rice Stubble Management.....	42
Nitrogen Management .....	42
<b>6 – DD50 Computerized Rice Management Program .....</b>	<b>43</b>
How to Use the DD50 .....	44
Uses of the DD50.....	45
Explanation of the DD50 Printout .....	45
Growth Stages .....	46
Herbicides.....	46
Other .....	47
Example DD50 Printout .....	49
<b>7 – Rice Weed Control .....</b>	<b>51</b>
Herbicide Resistance Management .....	52
Clearfield Rice.....	52
Provia Rice .....	53
Grass Weed Control .....	53
Propanil .....	53
Clincher and Ricestar HT .....	55
Residual Herbicides .....	56
Bolero 8E .....	56
Command 3ME.....	56
Quinclorac .....	56
League.....	57
Prowl H <sub>2</sub> O .....	57
Broadleaf and Aquatic Weed Control .....	57
Aim .....	58
Basagran, Ultra Blazer and Storm .....	58
Grandstand-R 3SL .....	58
Londax 60DF.....	59
Loyant.....	59
Permit or Permit Plus .....	59
Sharpen .....	59
Strada.....	60
Regiment .....	60
Grasp .....	60
2,4-D .....	60
Aquatic Weed Control.....	60
Harvest Aids – Sodium Chlorate .....	61
<b>8 – Chemical Applications .....</b>	<b>63</b>
Soil Applications of Pesticides .....	63
Ground-Based Applications.....	63
Aerial Applications .....	64
Postemergence Applications of Pesticides .....	65
Ground-Based Applications .....	65
Aerial Applications .....	65
Pesticide Drift .....	65
Flag the Technology .....	66
Fertilizers .....	67
Ground Applied .....	67
Aerially Applied.....	67
Material Property Effects .....	68
General Recommendations .....	68
<b>9 – Soil Fertility.....</b>	<b>69</b>
Nitrogen .....	69
Nitrogen Fertilizer Rates.....	69
Standard Method .....	69
Nitrogen-Soil Test for Rice (N-STaR) .....	70
Dry Seeding .....	73
Early N Application and Management .....	74
Midseason N Application and Management .....	78
Water-Seeding – Pinpoint Flood .....	80
Conservation or No-Till Systems.....	80
Soil Sampling and Soil Analysis .....	81
Sulfur .....	83
Phosphorous and Potassium .....	85
Phosphorous .....	85
Potassium .....	87
Poultry Litter as a Fertilizer Source on Nongraded Fields .....	90
Liming .....	91
Zinc .....	92
Preplant and Delayed-Pre Zn Application .....	94
Preflood Applications .....	96
Salvage Treatment for Zn Deficiency .....	96
Salinity .....	97
Management of Saline Soils.....	98
Diagnostic Soil and Plant Tissue Sampling .....	98
Fertilization and Management of Precision-Graded Soils .....	99
General Fertility .....	99
Rate of Poultry Litter.....	100
Management Tips.....	101

<b>10 – Water Management.....</b>	<b>103</b>
Determining Water Needs .....	103
Determining Pump Flow .....	104
Pumping Cost .....	107
Well Operation.....	108
Irrigation Water Quality .....	109
Establishing Levees .....	110
Land Grading.....	111
Water Delivery to Fields .....	111
Multiple Inlet Irrigation.....	112
Furrow-Irrigated Rice .....	114
Cultivar Selection .....	114
Seed Treatments .....	115
Planting Furrow-Irrigated Rice .....	115
Fertility Management .....	115
Weed Management .....	116
Disease Management .....	116
Insect Management .....	117
Irrigation Management.....	117
Budgeting for Furrow Versus Flood Irrigation .....	119
Sprinkler-Irrigated Rice .....	119
Intermittent Flood or Alternate	
Wetting and Drying (AWD) .....	120
What Is Alternate Wetting and Drying.....	120
Potential Benefits .....	120
Potential Risks.....	120
Getting Started.....	120
Pest Control in AWD .....	122
Fertility Management .....	122
Irrigation Termination .....	122
Utilizing Surface Water for Irrigation	
in Critical Groundwater Areas .....	124
Critical Groundwater Designations .....	124
State Income Tax Credits for Groundwater	
Conservation in Critical Areas .....	124
Federal Soil and Water Conservation	
Financial Incentive Programs.....	125
Surface Water Storage and Water Reuse.....	126
Keys to Water Management Success .....	127
Critical Water Management Situations .....	128
<b>11 – Management of Rice Diseases.....</b>	<b>125</b>
Sheath Blight .....	126
Blast .....	130
Stem Rot .....	132
Crown (Black) Sheath Rot .....	132
Kernel Smut .....	133
False Smut .....	134
Bacterial Panicle Blight .....	135
Brown Spot .....	135
Straighthead .....	136
Autumn Decline or Akiochi .....	137
Narrow Brown Leaf Spot .....	137
Other Minor Diseases.....	138
<b>12 – Insect Management in Rice .....</b>	<b>141</b>
Major Pests of Rice .....	142
Grape Colaspis or Lespedeza Worm.....	142
Rice Water Weevil .....	144
Rice Stink Bug .....	150
Minor Rice Insects.....	155
Armyworms: True Armyworm and Fall Armyworm.....	155
Aphids: Greenbug and Bird Cherry-Oat Aphid .....	157
Rice Stalk Borer.....	158
Sugarcane Borer .....	160
Other Stem Borer Species .....	161
Billbug .....	161
Rice Seed Midges .....	162
Grasshoppers.....	163
Chinch Bug.....	164
<b>13 – Rice Grades .....</b>	<b>165</b>
Factors Affecting Rice Grade .....	166
Grain Moisture Content.....	166
Head Rice and Milling Yields .....	167
Foreign Matter .....	167
<b>14 – Laboratory Measurement of Rice Milling Yield .....</b>	<b>169</b>
Definitions .....	169
Introduction .....	170
Laboratory Assessment of Milling Yield .....	170
Surface Lipid Content as a Measure of	
Degree of Milling .....	172
Factors that Impact Degree of Milling .....	173
Accounting for Degree of Milling	
When Determining Milling Yield.....	175
Impact of Degree of Milling on End-Use Functionality.....	175
Summary .....	175
References .....	176
<b>15 – Production Factors Impacting Rice Milling Yield.....</b>	<b>177</b>
Nighttime Air Temperature .....	177
Harvest Moisture Content .....	179
Other Production Factors .....	181
Summary .....	181
References .....	182
<b>16 – Fundamentals of On-Farm Rice Drying and Storage .....</b>	<b>183</b>
Tips for Rice Drying.....	183
Tips for Rice Storage .....	186
<b>17 – Rice Research Verification Program.....</b>	<b>187</b>
Program Goals.....	187
Program Objectives .....	187
Program Summary .....	187
<b>18 – Rice Farm Safety.....</b>	<b>193</b>
General Precautions.....	194
Have a Plan to Reduce Hazards .....	194
Field Safety .....	194
Grain Handling Safety .....	196
Traffic and Road Transport Safety .....	198
Irrigation Safety .....	198
OSHA .....	199
Summary .....	199
<b>19 – Glossary of Rice Industry Terms.....</b>	<b>201</b>
